

School Visits with John Clapp!

Illustrator of picture books by Julius Lester, Bruce Coville, Liz Rosenberg & Robin McKinley & bookjackets for Jean Craighead George, Susan Cooper, Jane Yolen, Theodore Taylor, Sharon Draper & others!

Who draws the pictures? **How** do they do it? **Can** I learn to do that? All of these questions and many more are answered during my school presentations!

When I visit schools, I like to talk about “What Everyone Should Know About Drawing & How Anyone Can Learn to Do It Well,”—a highly visual, interactive romp through the human brain, the magic of symbols, the basics of drawing, and how to unleash the amazing artist **EVERYONE** has inside of them—an artist that most people never knew they had!

With dramatic drawing demonstrations*, I show the students fun drawing exercises they can practice on their own, discuss my books, how I make them, and how I learned to be an artist. (There is no such thing as talent!)
